

*Epic Experiences*

*Tequila Tasting Experience!*

## *Have a Shot... of Tequila Knowledge!*

Join us unraveling Mexico's emblematic beverage, let Villa Aqua and our Tequila Expert be your hosts throughout this unique experience that involves Mexican folklore, traditions, flavors and scents in a single glass of our elixir of life.

The program starts with a brief history of Tequila; you will learn the process of manufacture (from the field to the bottle) and how the beverage gained an appellation of origin. Distinguish the difference between each expression of Tequila, the varieties that exist and the way to identify a good quality spirit (the wisest way to start is to know if what you are buying suits best for your taste).

The experience continues as we immerse in 3 or 4 labels depending the service you require, and involves using all our senses:

- **Sight**      The colors and visual aspects each bottle has.
- **Smell**      Not only does the alcohol scent is present, with the use of several ingredients we will help you to discover the complexity each expression of tequila has.
- **Touch**      The consistency of real cooked agave
- **Taste**      Each step we take in discovering the perfect match to each of the selected brands we'll try.

Discover the traditional way of enjoying Tequila, the how's and why's of the Mexican way of tasting and compare it with your new skills... and remember: the best judge is the one who has the knowledge!

Finally and most important, have fun!

This service is for you to enjoy and to reappraise this millenary legacy.

iSalud! (cheers!)
